Education

MD

1998-2006: Tehran University of Medical Sciences, Tehran, Iran, passed with distinction including 18 months of Internship: Internal medicine, Emergency medicine, Public Health, Obstetrics & Gynecology, Pediatric, Surgery, Infectious disease, Orthopedic, ENT, Dermatology and Psychiatry.

MPhil

Advanced Research Method, Scientific Writing, Ethics in Research, Knowledge Transfer and Exchange (KTE), Educational Classes for All Aspects of HIV/AIDS, Advance Statistics, Working with SPSS Software, Project Management, and Basic Lab Principles. I passed with distinction.

PhD by Research in Epidemiology

2012-2016: Tehran University of Medical Sciences, Top Student in the university and receiving a letter of appreciation from the university president.

My thesis title is "*Comparison of TB/HIV indicators after implementation of clinical guideline for TB and TB/HIV management in Iranian prisons*".

For implementation of the project, the followings were done.

- Focus Group Discussion (FGD)

A FGD was conducted with the objective of overcoming deficiencies in the clinical guideline on "Tuberculosis (TB) and both TB and HIV in Prisons" and improving TB control programs in prisons through the implementation of the revised guideline. After the discussion, the clinical guideline was revised.

- Revising Structures of TB/HIV-related Services in the Great Tehran Prison

- Training TB/HIV Diagnosis Services and HIV Rapid Test
- Training courses for "TB and HIV guideline in prisons" were held. Several training sessions were taken place and attended by a wide range of audiences, including healthcare staff, attorneys and healthcare communicators, security force, official personnel, prison governor, and the heads of prison types.
- Implementation of the guideline and extraction of the indicators
- The guideline for the control of HIV and TB and HIV in prison was piloted and the finalized version was named “Prison-based Active Health Services Provision” (PAHSP) which has been scaled up in 16 of 260 Iranian prisons.

G) Magazine and Mass Media

- We have prepared and published a quarterly journal with title “*AIDS*” and then distributed among health providers in the country.
- I wrote the subjects about HIV infection (*HIV, Information and Victims, HIV and Juveniles, HIV and nutrition, HIV Treatment*) to notify the public. These subjects were published in Magazines “*Health Family*”, “*Anjoman Ehya*” and “*Sepid*”. Also we published Tehran Positive Club activities in “*Hidden Harm Newsletter*” affiliated to center for disease control and prevention (CDC) of Iran.
- I attended in several TV and Radio programs about HIV/AIDS. In these programs, I talked about different aspects of HIV/AIDS for the general population.

Work Experience

- ✓ From 2006 to now as *Medical Researcher*, I have served at IRCHA. I worked on many projects at IRCHA, for example; Adherence to ART and its determinants and examination of cognitive aspects in HIV positive patients. I also worked on HIV rapid test among low risk groups (immigrant workers, truck drivers, sailors, and pregnant women) and neurologic manifestations in HIV/AIDS patients.
- ✓ In 2008-2017, I have written eleven proposals for UNAIDS about the programs for Tehran Positive Club at Imam Khomeini Hospital. In the programs, I taught "HIV and Epidemiology", "HIV and Transmission", "HIV and Prevention", "HIV and Opportunistic Infections", "HIV and treatment", "HIV and Nutrition" to patients infected with HIV and hot line consultants. Also, I wrote Stigma Index Proposal under titled: "Calculation the Stigma Index among people living with HIV (PLHIV) in six-cities in Iran". After that by positive club team I implemented the project, did analyses and prepared the final report.
- ✓ In 2015, working as facilitator in prisons organization workshop under title: "Improvement of TB and HIV Programs in Prisons"
